Allegheny Fence's History in Pittsburgh

Allegheny Fence was founded by Alfred Nayhouse in 1953. We are centrally located just outside

downtown Pittsburgh on Irvine Street (or Second Avenue). We have remained in this location throughout our history and continue to be family owned and operated.

Allegheny Fence is a member of the American Fence Association and also the Better Business Bureau. We understand your concern for quality and have made a commitment to provide a combination of products, services and price that is sure to satisfy all of your fencing needs.

No job is too small or too large. We can complete projects as little as installing a single residential gate to securing the State Correctional Facilities. Our installation teams are highly experienced in both residential and commercial projects.

In the 1950's, the fencing industry included primarily chain link and guide rail. Today, the choices are numerous. They include many styles, from treated wood fence or basic chain link to some spectacular ornamental aluminum or iron fencing and gates and beautiful maintenance-free PVC fencing.
