- Section Lengths: 4', 5', 6', 7', 8' (7' & 8' in 36" height only)
- Stair Rail Lengths: 4', 5', 6' (Available April 2016)
- C80 Baluster: 5/8" round
- Baluster Spacing: 3" c/c
- Stylish Top Rail: 1-3/4" w (.090") x 1-3/8" t (.085")
- Bottom Rail: 1-3/4" w (.080") x 1-1/4" t (.080")
- 1/8" Stainless Steel Cable with Fasteners

VertiCable™ Adjustable Gates

Style: C80 Gates in 36" and 48" widths. 36" x 36" Gate shown above
Exclusive DSI Powder Coating Process

AAMA 2604 & AAMA 2605

Westbury Aluminum Railing powder coating is an uncompromising quality created by state-of-the-art technology. This is the highest quality powder coating on the market with a lifetime-limited warranty giving you peace of mind in your investment.

The raw premium-grade aluminum is inspected to be free of blemishes and is not exposed to the outdoor elements.

The product enters a heated acidic cleaning stage to remove extrusion debris and fabrication oils.

First of three water rinses, ending in pure reverse osmosis water. Finishing with a dried-in-place aluminum sealer.

A 200 MPH air blast removes water drops from the pre-treated aluminum. A convection oven completes the dry-off process.

Powder is applied with 18 automated and 2 manual spray guns. Compressed process air is dried to -35°F Dew Point for superior adhesion.

The powder coating is then bonded and adhered to the aluminum substratum in a 400 degree cure stage.

DSI is a PCI 4000 certified and verified AAMA 2604 and AAMA 2605 compliant powder coating applicator. The powder coating process is accredited by the American Architectural Manufacturing Association and the Powder Coating Institute. Our powder coating is custom blended from a Super Durable Polyester TGIC (Triglycidyl Isocyanurate) resin-base, using premium pigmentation to meet AAMA 2604 specifications. Our AAMA 2605 is a fluorocarbon polymer resin system.
VertiCable™ Accessories
Featuring Westbury
Brackets, Posts, Welded Corner, Caps, and Flairs

The finishing touch to your masterpiece - Accessories. A variety of post sizes and wall thicknesses add strength to your railing. The standard mounts combined with swivel mounts solve many unique scenarios. Optional post caps finished off by the convenience of 2-piece and 1 piece post flairs, create a variety of looks. All these options create the Westbury Aluminum Railing Accessories.

Mounts

- Wall & Angle Swivel Mounts
- Stair Swivel Mounts
- Top and Bottom Double Swivel Stair Mount

Crossovers

- "Corner Crossover Post
- "Stair Crossover Post
